1. AMENDMENTS IN RELATION TO NORWAY

EXPLANATORY NOTE

Given that, in December 2022, bilateral consultations between the EU and Norway on two shared and jointly managed stocks in the Skagerrak had not yet concluded, Regulation (EU) 2023/194¹ sets provisional TACs for Northern prawn (*Pandalus borealis*) and whiting (*Merlangius merlangus*) in ICES division 3a (Skagerrak and Kattegat) for the period 1 January to 31 March 2023.

The EU and Norway held bilateral consultations on: (i) the shared and jointly managed stocks in the Skagerrak, including Northern prawn and whiting, with the aim to agree on the management of those stocks including the fishing opportunities; (ii) access to waters; and (iii) exchanges of fishing opportunities. Consultations on the management of the stocks in the Skagerrak were conducted between 9 November and 9 December 2022, on the basis of the EU position outlined in the Commission services non-paper endorsed by the Council on 21 October 2022. Between 9 November 2022 and 16 March 2023, consultations on access to waters and on exchanges of fishing opportunities were conducted, also on the basis of the EU position outlined in the Commission services non-paper endorsed by the Council on 21 October 2022. The outcome of those consultations was documented in two Agreed Records, signed by the Heads of Delegation of the EU and Norway on 17 March 2023. It is therefore proposed to set the relevant fishing opportunities at the level set out in those Agreed Records, and to implement the other provisions of the Agreed Records in EU law. As regards the Northern prawn and whiting in ICES division 3a, those fishing opportunities would replace the provisional TACs set by Regulation (EU) 2023/194. As regards capelin (*Mallotus villosus*) in Greenland waters of ICES subareas 5 and 14, as set out in the relevant Agreed Record, an amount of 10 000 tonnes should be transferred to Norway for the 2022-2023 fishing season. The fishing opportunities for that stock for the 2022-2023 fishing season set by Regulation (EU) 2022/109² would therefore be amended.

AMENDMENTS TO THE RECITALS

Recital (4) is replaced by the following:

“(4) The Union and Norway held bilateral consultations on: (i) shared and jointly managed stocks in the Skagerrak, including Northern prawn (*Pandalus borealis*) and whiting (*Merlangius merlangus*) in ICES division 3a, with the aim to agree on the management of those stocks including the fishing opportunities; (ii) access to waters; and (iii) exchanges of fishing opportunities. Consultations on the management of the stocks in the Skagerrak

¹ Council Regulation (EU) 2023/194 of 30 January 2023 fixing for 2023 the fishing opportunities for certain fish stocks, applicable in Union waters and, for Union fishing vessels, in certain non-Union waters, as well as fixing for 2023 and 2024 such fishing opportunities for certain deep-sea fish stocks (OJ L 28, 31.1.2023, p. 1).

² Council Regulation (EU) 2022/109 of 27 January 2022 fixing for 2022 the fishing opportunities for certain fish stocks and groups of fish stocks applicable in Union waters and for Union fishing vessels in certain non-Union waters (OJ L 21, 31.1.2022, p. 1).

were conducted between 9 November and 9 December 2022, on the basis of the Union position agreed by the Council. Between 9 November 2022 and 16 March 2023, consultations on access to waters and on exchanges of fishing opportunities were conducted, also on the basis of the Union position agreed by the Council. The outcome of those consultations was documented in two Agreed Records, signed by the Heads of Delegation of the Union and Norway on 17 March 2023. The relevant fishing opportunities should be fixed at the level set out in those Agreed Records, and the other provisions of the Agreed Records should be implemented in Union law. The relevant fishing opportunities set by Regulation (EU) 2023/194 and the fishing opportunities for capelin (*Mallotus villosus*) in Greenland waters of ICES subareas 5 and 14 set by Regulation (EU) 2022/109³ should be amended accordingly.”

Recital (9) is replaced by the following:

“(9) The fishing opportunities provided for in Regulation (EU) 2023/194 apply from 1 January 2023. The provisions introduced by this Regulation concerning fishing opportunities should therefore also apply from 1 January 2023, except for the fishing opportunities for capelin in Greenland waters of ICES subareas 5 and 14. The fishing opportunities for capelin in Greenland waters of ICES subareas 5 and 14, set by Regulation (EU) 2022/109, should apply from 15 October 2022 to 15 April 2023. Such retroactive application does not affect the principles of legal certainty and protection of legitimate expectations, as the fishing opportunities concerned are increased. Given the urgency to avoid interruptions of fishing activities, this Regulation should enter into force on the day of its publication in the Official Journal of the European Union,”

AMENDMENTS TO THE ARTICLES

The following article is inserted:

³ Council Regulation (EU) 2022/109 of 27 January 2022 fixing for 2022 the fishing opportunities for certain fish stocks and groups of fish stocks applicable in Union waters and for Union fishing vessels in certain non-Union waters (OJ L 21, 31.1.2022, p. 1).

”

Article 2 is replaced by the following:

“

Article 2
Entry into force and application

This Regulation shall enter into force on the day of its publication in the *Official Journal of the European Union*.

The provisions of this Regulation shall apply from 1 January 2023, except for the provisions concerning capelin (*Mallotus villosus*) in Greenland waters of ICES subareas 5 and 14, which should apply from 15 October 2022 to 15 April 2023.
