EU4Ocean
DELIVERING BLUE LITERACY & CITIZENSHIP

With healthy rivers and seas being a cornerstone of a sustainable and resilient EU society, we need to reconnect people with blue (fresh and marine) ecosystems. Strengthening ocean literacy will support this reconnection: it will contribute to a better understanding of our multiple connections with rivers and seas as well as of our responsibilities and pathways to more sustainable action.

The European Ocean Coalition (EU4Ocean) connects diverse organisations, projects and people that contribute to ocean literacy and the sustainable management of the ocean.

MECHANISMS TO DELIVER EU4OCEAN VISION:

1. Challenge of the Year Call for the projects,
2. Advocacy campaigns,
3. MakeEUBlue Awards – recognising best initiatives on ocean literacy in Europe.

Why join EU4Ocean?

Collaborate with researchers, industry experts, policymakers, artists, schools, and youth.

Design and participate in collective actions.

Develop and carry out ocean literacy projects.

Participate in challenges to win awards with your own project or initiative.

EU4Ocean Coalition consists of **3 communities**

EU4Ocean connects the 3 communities to unite the voices of Europeans and make the ocean a concern of everyone!

Network of European Blue Schools
for schools, teachers and staff of education services from all subjects

Youth4Ocean Forum
for young ocean advocates aged between 16 and 30

EU4Ocean Platform
for organisations and individuals engaged in ocean literacy initiatives
