FAMENET (Fisheries and Aquaculture Monitoring, Evaluation and Local Support Network) supports stakeholders in the implementation of the European Maritime and Fisheries Fund (EMFF) and European Maritime, Fisheries and Aquaculture Fund (EMFAF).

FAMENET merges the support previously provided by FAME and FARNET in three core areas:

- **monitoring and evaluating** the implementation of the EMFAF and the EMFF.
- **implementing community-led local development (CLLD)** in fisheries and aquaculture areas to foster a sustainable blue economy.
- **communicating** on the results of the EMFF and EMFAF through written stories and videos, and supporting the INFORM EU network.

Questions on the Monitoring and Evaluation Framework (MEF) of the EMFAF 2021-2027, including the development of national strategies, EMFAF programmes and the intervention logic of the MEF

— Where can I find an overview of each Member State's EMFAF strategy?

EMFAF programmes for all Member States are available for download on EMFAF programmes 2021 - 2027 EN.

Member States' strategy development for the EMFAF begins with Table 1 and Table 1A of their EMFAF programme. This section is where Managing Authorities show that they have developed a red line for the programme, which serves as a basis for negotiation and for justifying the chosen actions and indicators.

In section 1 of the programme Member States outline the main development challenges and policy responses. Table 1A contains a *SWOT analysis* (strengths, weaknesses, opportunities and threats) and identification of *needs*, as well as a *justification* for the actions to be taken with EMFAF funding, performed separately for each EMFAF priority included in the programme. The elements are described in detail in the FAMENET working paper on the Monitoring and Evaluation Framework (MEF) EN.
