

Data Collection

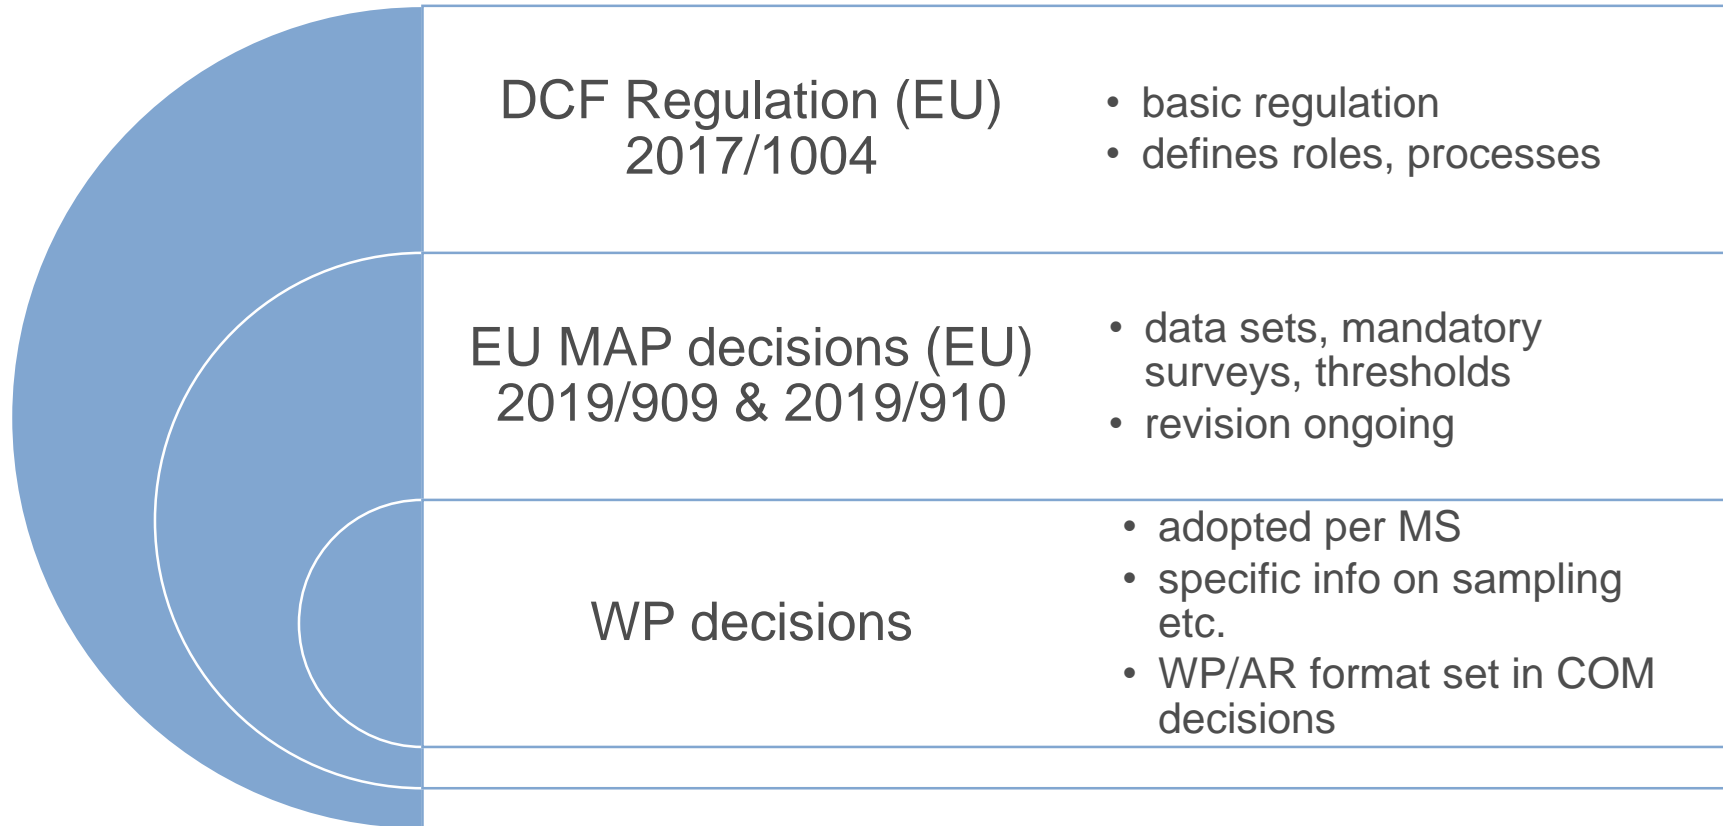

EU-MAP after 2021
EMFF expert group, November 2020

MARE C3
Scientific Advice & Data Collection

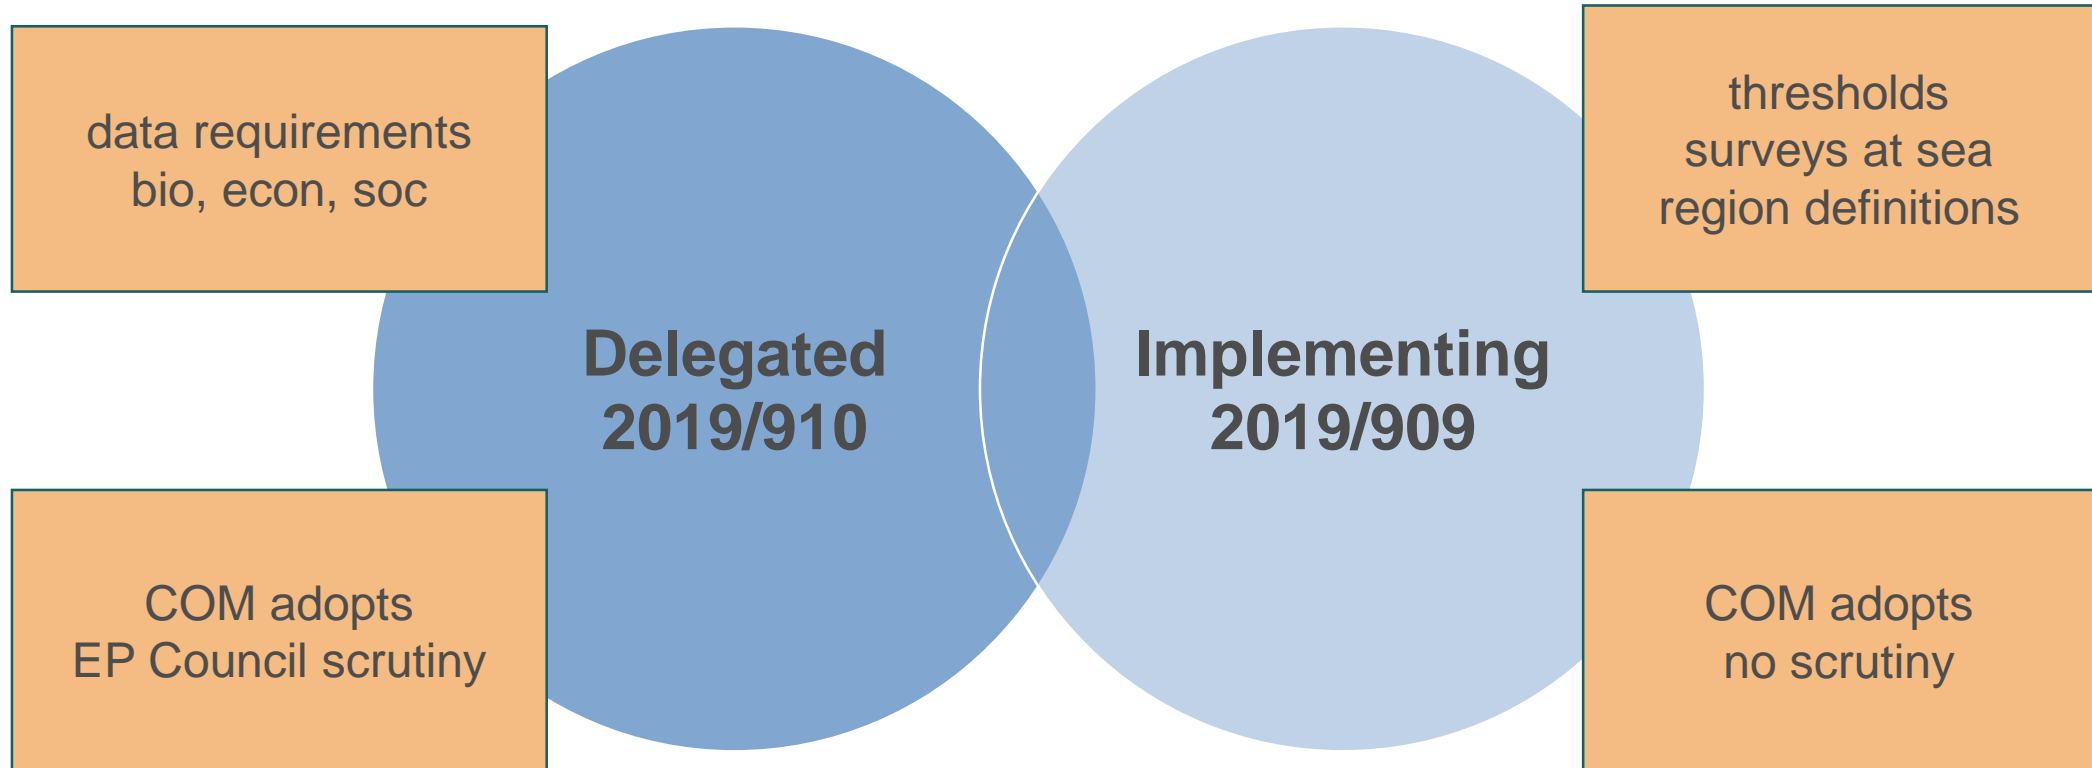

Data collection - core for effective CFP

Data collection framework

EU-MAP decisions

EU-MAP revision 2018-2020

2018

- first brainstorming STECF EWG 18-18

2019

- stakeholder consultation (RFMOs, RCG, PGECON, NC)
- STECF 19-05 surveys; EWG 19-12 EU MAP & WP

2020

- COM drafting, expert consultation 1 July, 22 Sept; STECF Nov consultation
- comitology voting & adoption implementing decision (soon)
- adoption & EP Council scrutiny delegated decision (soon)
- WP/AR templates drafting STECF EWG 20-18 (2021); **vote in EMFF committee**

EU-MAP revision – what to expect

- regionalisation
- methodologies
- recreational sampling
- diadromous sampling
- new regular activities
- recreational fishing
- sensitive species
- social variables
- **optional activities**
- fish processing
- testing new methods
- stomach sampling

regional work plans

EMFF OP – DCF

- New OP – new opportunities for better cooperation
- Regionalisation: regional work plan, more intersessional regional meetings, work on new regional databases
- Data availability: invest in compatible databases on all levels
- DCF annual report approval – no legal basis in DCF, still requested by some national authorities

Thank you
