

# **EMFF information fiche 13**

## **Common Result Indicators and their definitions**

**EMFF Expert group 30.9.19**

# Common Result Indicators and their definitions

- Improved shortlist of 2014-2020 indicators
  - 3 Expert Group discussions
  - 2 Technical workshops (FAME)
- Updating and replacing the indicators in Fiche 11 presented on 12.6.19

# Why common indicators?

- Show the main uses and achievements of the fund using common and comparable measures
- Any EMFF investment should contribute to one or more of these indicators
- Broad and general, not specific and detailed
- Continuity and simplification of current approach

# How to use common result indicators

- Definitions in a Working Paper
- CPR Article 37: regular transmission of **result indicators, output indicators**, and financial information
- EMFF programme: select at least one common indicator per area of support
- Operation level in Infosys: provide the indicator-relevant information
- Automatic calculation of indicator values for CPR37 reporting, on submission of Infosys report

# Common Result Indicators

- Economic sustainability

Number	Title	Unit
1	Volume of (landings/aquaculture production/processing)	Tonnes
2	Production capacity (aquaculture/processing)	Tonnes/ annum
3	Value of (landings/aquaculture production/processing)	EUR
4	Businesses created	Number
5	Businesses with higher turnover	Number
6	Innovations enabled	Number
7	Entities benefitting from promotion and information activities	Number

# Common Result Indicators

- Environmental sustainability

Number	Title	Unit
8	Volume of unwanted catch	Tonnes
9	Capacity of vessels withdrawn	GT
		kW
10	Area addressed by operations protecting, conserving, and restoring biodiversity and ecosystems	km <sup>2</sup>
11	Actions addressing nature restoration, conservation, protection of ecosystems, biodiversity, health and welfare	Number
12	Entities improving resource efficiency in production and/or processing	Number
13	Energy consumption (on board a vessel/in aquaculture/in processing) leading to CO <sub>2</sub> emissions reduction	litres/hour

# Common Result Indicators

- Social sustainability

Number	Title	Unit
14	Entities increasing social sustainability	Number
15	Cooperation activities between stakeholders	Number
16	Jobs created (FTE)	Number
17	Jobs maintained (FTE)	Number
18	Persons benefitting	Number

# Common Result Indicators

- Governance of CFP

Number	Title	Unit
19	Effectiveness of the system for “collection, management and use of data” in the required quality	3= high, 2=med, 1= low
20	Fishing vessels where control means are installed	Number
<b>21</b>	Actions to improve governance capacity	Number

- Direct Management

Number	Title	Unit
<b>22</b>	Datasets and advice made available	Number
<b>23</b>	Investment induced	EUR

# Infosys details to feed the indicators

- Beneficiary details and situation prior to investment (production volume, number FTE...)
- Sector (chose 1)
  
- Characteristics of investment:
- Type of operation (chose 1)
- Expected impact (*result indicator and value*)
- Series of tick-boxes: *Relevant to SSCF, LO, climate change, gender equality....*
  
- Beneficiary situation after investment - results

# Main messages

- Common Result Indicators are broad and general
  - headline uses and achievements of EMFF
- Definitions are detailed and inclusive
- More specific details are captured in Infosys
- No need for programme specific indicators
- To meet reporting obligations with least burden:  
configure IT system to generate Infosys reports  
on demand

# Next Steps

- Written feedback on definitions to [MARE-D3-EMFF@ec.europa.eu](mailto:MARE-D3-EMFF@ec.europa.eu)  
Make sure your specific needs are included
- Definitions Working Paper mid-2020
- Drafting of legal act supporting Infosys and Common Result Indicators following the adoption of the EMFF
