COMMISSION SERVICES NON PAPER

11 NOVEMBER 2022

This document serves as a basis for discussion at the Working Party on Fisheries Policy. It cannot in any circumstances be regarded as the official position of the Commission.

It is intended solely for those to whom it is addressed.

Updates to Commission proposal for a Council Regulation fixing for 2023 the fishing opportunities for certain fish stocks, applicable in Union waters and, for Union fishing vessels, in certain non-Union waters, as well as fixing for 2023 and 2024 such fishing opportunities for certain deep-sea fish stocks (COM(2022) 559)

1. AMENDMENTS IN RELATION TO NORWAY LOBSTER

EXPLANATORY NOTE

On 28 October 2022, ICES published its scientific advice for Norway lobster (*Nephrops norvegicus*) in ICES division 3a (Skagerrak and Kattegat), functional units (FUs) 3 and 4, for 2023^1 . ICES provides MSY advice for that stock. The Commission proposes to set the TAC for Norway lobster in ICES division 3a for 2023 in accordance with that advice and, in particular, the lowest value within the range of F_{MSY} ('MSY F_{lower} '). It proposes to set the TAC in line with MSY F_{lower} as setting a lower TAC for Norway lobster would support the recovery of cod in the same area, which is a by-catch of the same fishery and for which there is a zero-catch advice. This represents a decrease of 16% compared to the TAC set for 2022.

Also on 28 October 2022, ICES published its scientific advice for Norway lobster in ICES divisions 8a and 8b (northern and central Bay of Biscay), FUs 23 and 24, for 2023². ICES provides MSY advice for that stock. The Commission proposes to set the TAC for Norway lobster in ICES division 8a, 8b, 8d and 8e (Bay of Biscay) for 2023 in accordance with that advice. This represents an increase of 19% compared to the TAC set for 2022.

AMENDMENTS TO THE ANNEXES

In Annex IA, Part A, the fishing opportunities tables for Norway lobster (*Nephrops norvegicus*) in ICES division 3a and in ICES divisions 8a, 8b, 8d and 8e are replaced by the following:

"

Species:	Norway lobster		Zone:	3a
	Nephrops norvegicus			(NEP/03A.)
Denmark		5 259	Analytical TAC	
Germany		15		
Sweden		1 881

² https://doi.org/10.17895/ices.advice.19772425

TAC 4 631

2. AMENDMENTS IN RELATION TO RED SEABREAM

EXPLANATORY NOTE

An error of clerical nature has been detected and therefore the following amendment is needed: A landing obligation exemptions deduction of -1,43% rather than of -0,14% should be applied to the Union quota for red seabream (*Pagellus bogaraveo*) in Union and international waters of ICES subarea 9 (Iberian waters) for 2023 and 2024. The fishing opportunities for that stock should be amended accordingly.

AMENDMENTS TO THE ANNEXES

In Annex IA, Part E, the fishing opportunities table for red seabream (*Pagellus bogaraveo*) in Union and international waters of ICES subarea 9 is replaced by the following:

"

Species:	Red seabream		Zone: Union and international waters of 9
	Pagellus bogaraveo		(SBR/09-)
Year	2023	2024	Precautionary TAC
Spain	88	88	
Portugal	24	24	
Union	112	112	
TAC	114	114	

,,

3. AMENDMENTS IN RELATION TO EUROPEAN EEL

EXPLANATORY NOTE

On 3 November 2022, ICES published scientific advice for European eel (*Anguilla anguilla*) throughout its natural range for 2023³. The Commission proposal should be updated to take into account the publication of that advice, and the link to that advice should be included in a footnote reference.

Furthermore, in order to ensure consistency of the terminology used in Article 12, the word 'prohibition' should be replaced by 'closure' in paragraph 4, point (a), of that Article.

AMENDMENTS TO THE RECITALS

In recital (15), the first sentence is replaced by the following:

"(15) On 3 November 2022, ICES⁴ reiterated for 2023 its zero catch advice for eel in all habitats."

AMENDMENTS TO THE ARTICLES

In Article 12(4), point (a) is replaced by the following:

"(a) information about the closure period or periods referred to in paragraph 3, point (b), that it has determined; and"

https://doi.org/10.17895/ices.advice.19772374

^{4 &}lt;u>https://doi.org/10.17895/ices.advice.19772374</u>

4. AMENDMENTS IN RELATION TO NAFO

EXPLANATORY NOTE

At its 44th annual meeting in 2022, the Northwest Atlantic Fisheries Organisation (NAFO) adopted fishing opportunities for certain stocks in subareas 1 to 4 of the NAFO Convention area for 2023. Those measures should therefore be implemented in Union law.

AMENDMENTS TO THE RECITALS

Recital (38) is replaced by the following:

"(38) At its 44th annual meeting in 2022, the Northwest Atlantic Fisheries Organisation (NAFO) adopted fishing opportunities for certain stocks in subareas 1 to 4 of the NAFO Convention area for 2023. Those measures should be implemented in Union law."

AMENDMENTS TO THE ANNEXES

Annex IC is replaced by the following:

	Spain	509			
	Portugal	667			
	Union	1 176			

5. AMENDMENTS IN RELATION TO CCSBT

EXPLANATORY NOTE

At its 2022 annual meeting, the Commission for the Conservation of Southern Bluefin Tuna (CCSBT) confirmed the TAC for Southern bluefin tuna (*Thunnus maccoyii*) for 2023, as adopted at the 2020 annual meeting for a three-year period (from 2021 to 2023). That measure should therefore be implemented in Union law.

AMENDMENTS TO THE RECITALS

Recital (35) is replaced by the following:

"(35) At its 2022 annual meeting, the Commission for the Conservation of Southern Bluefin Tuna (CCSBT) confirmed the TAC for Southern bluefin tuna (*Thunnus maccoyii*) for 2023, as adopted at the 2020 annual meeting for a three-year period (from 2021 to 2023). That measure should be implemented in Union law."

AMENDMENTS TO THE ANNEXES

Annex IF is replaced by the following:

"

ANNEX IF
