Supporting social innovation in Flanders

ESF Programme 2014-2020

Medegefinancierd door
de Europese Unie

European Social Fund (ESF)

The ESF is Europe's main instrument for **supporting jobs, helping people get better jobs and ensuring fairer job opportunities for all EU citizens**. It works by investing in Europe's human capital – its workers, its young people and all those seeking a job.

With the resources from this fund, **ESF Flanders** stimulates Flemish organizations to strengthen the labor market and increase the employment rate. This is done by organizing **calls** for which organizations can submit project and receive grants. Special attention is paid to persons with a certain vulnerability or distance from the labor market.

Medegefinancierd door
de Europese Unie

ESF Flanders Programme

5 priorities

1. Promoting access to the labour market
2. Social inclusion
3. Lifelong learning
4. Investing in healthy jobs and inclusive workplaces
5. **Social innovation**

Medegefinancierd door
de Europese Unie

Social innovations are innovative solutions for important and complex societal challenges such as health, employment, inclusion, climate change...
This solution can be a **product, service, method, ...**

Examples:

- Peerby, a digital platform to share stuff with your neighbours
- Ray and Jules, coffee beans roasted on solar power
- OpenHiring, a method to hire people without a job interview

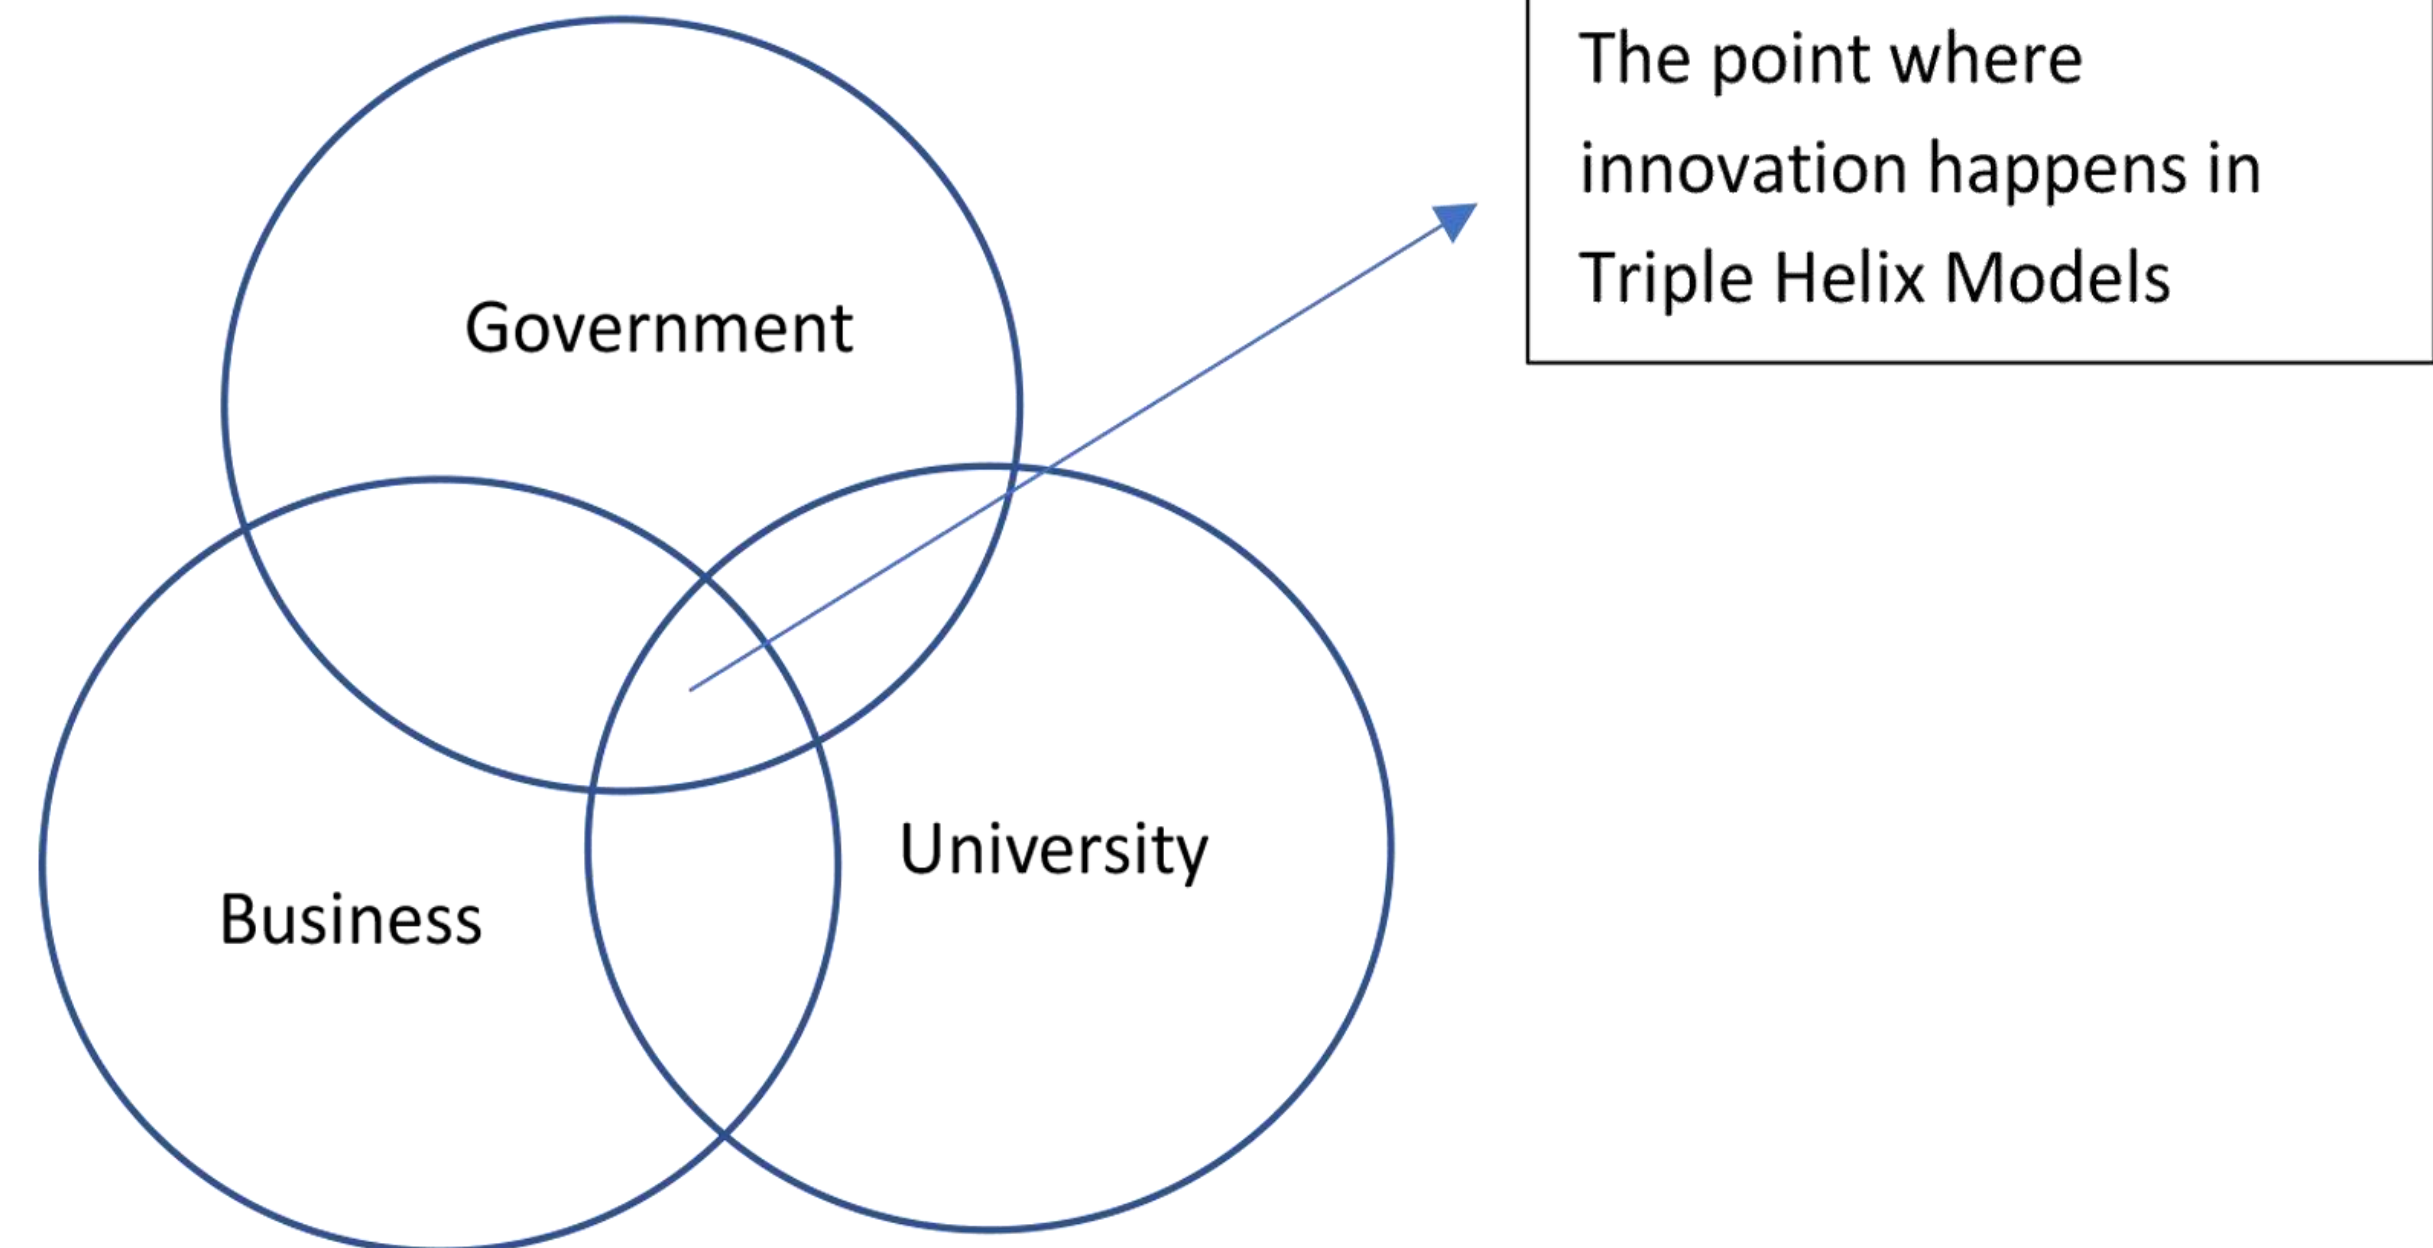

Supporting social innovation at ESF Flanders

Goal: to develop **new services** to strengthen employees and job-seekers on the Flemish labour market

How: **open calls** to all organizations that have a role to play on the Flemish labour market (NGOs, academia, government, companies, ...). We welcomed partnerships that unite diverse perspectives (triple helix).

But ...

- Innovation is risky and the result is often uncertain
- We can not fund based on a well defined output or result
- So we funded a process.

Medegefinancierd door

1. Discover

2. Define

3. Develop

4. Deliver

Project proposal / Societal challenge

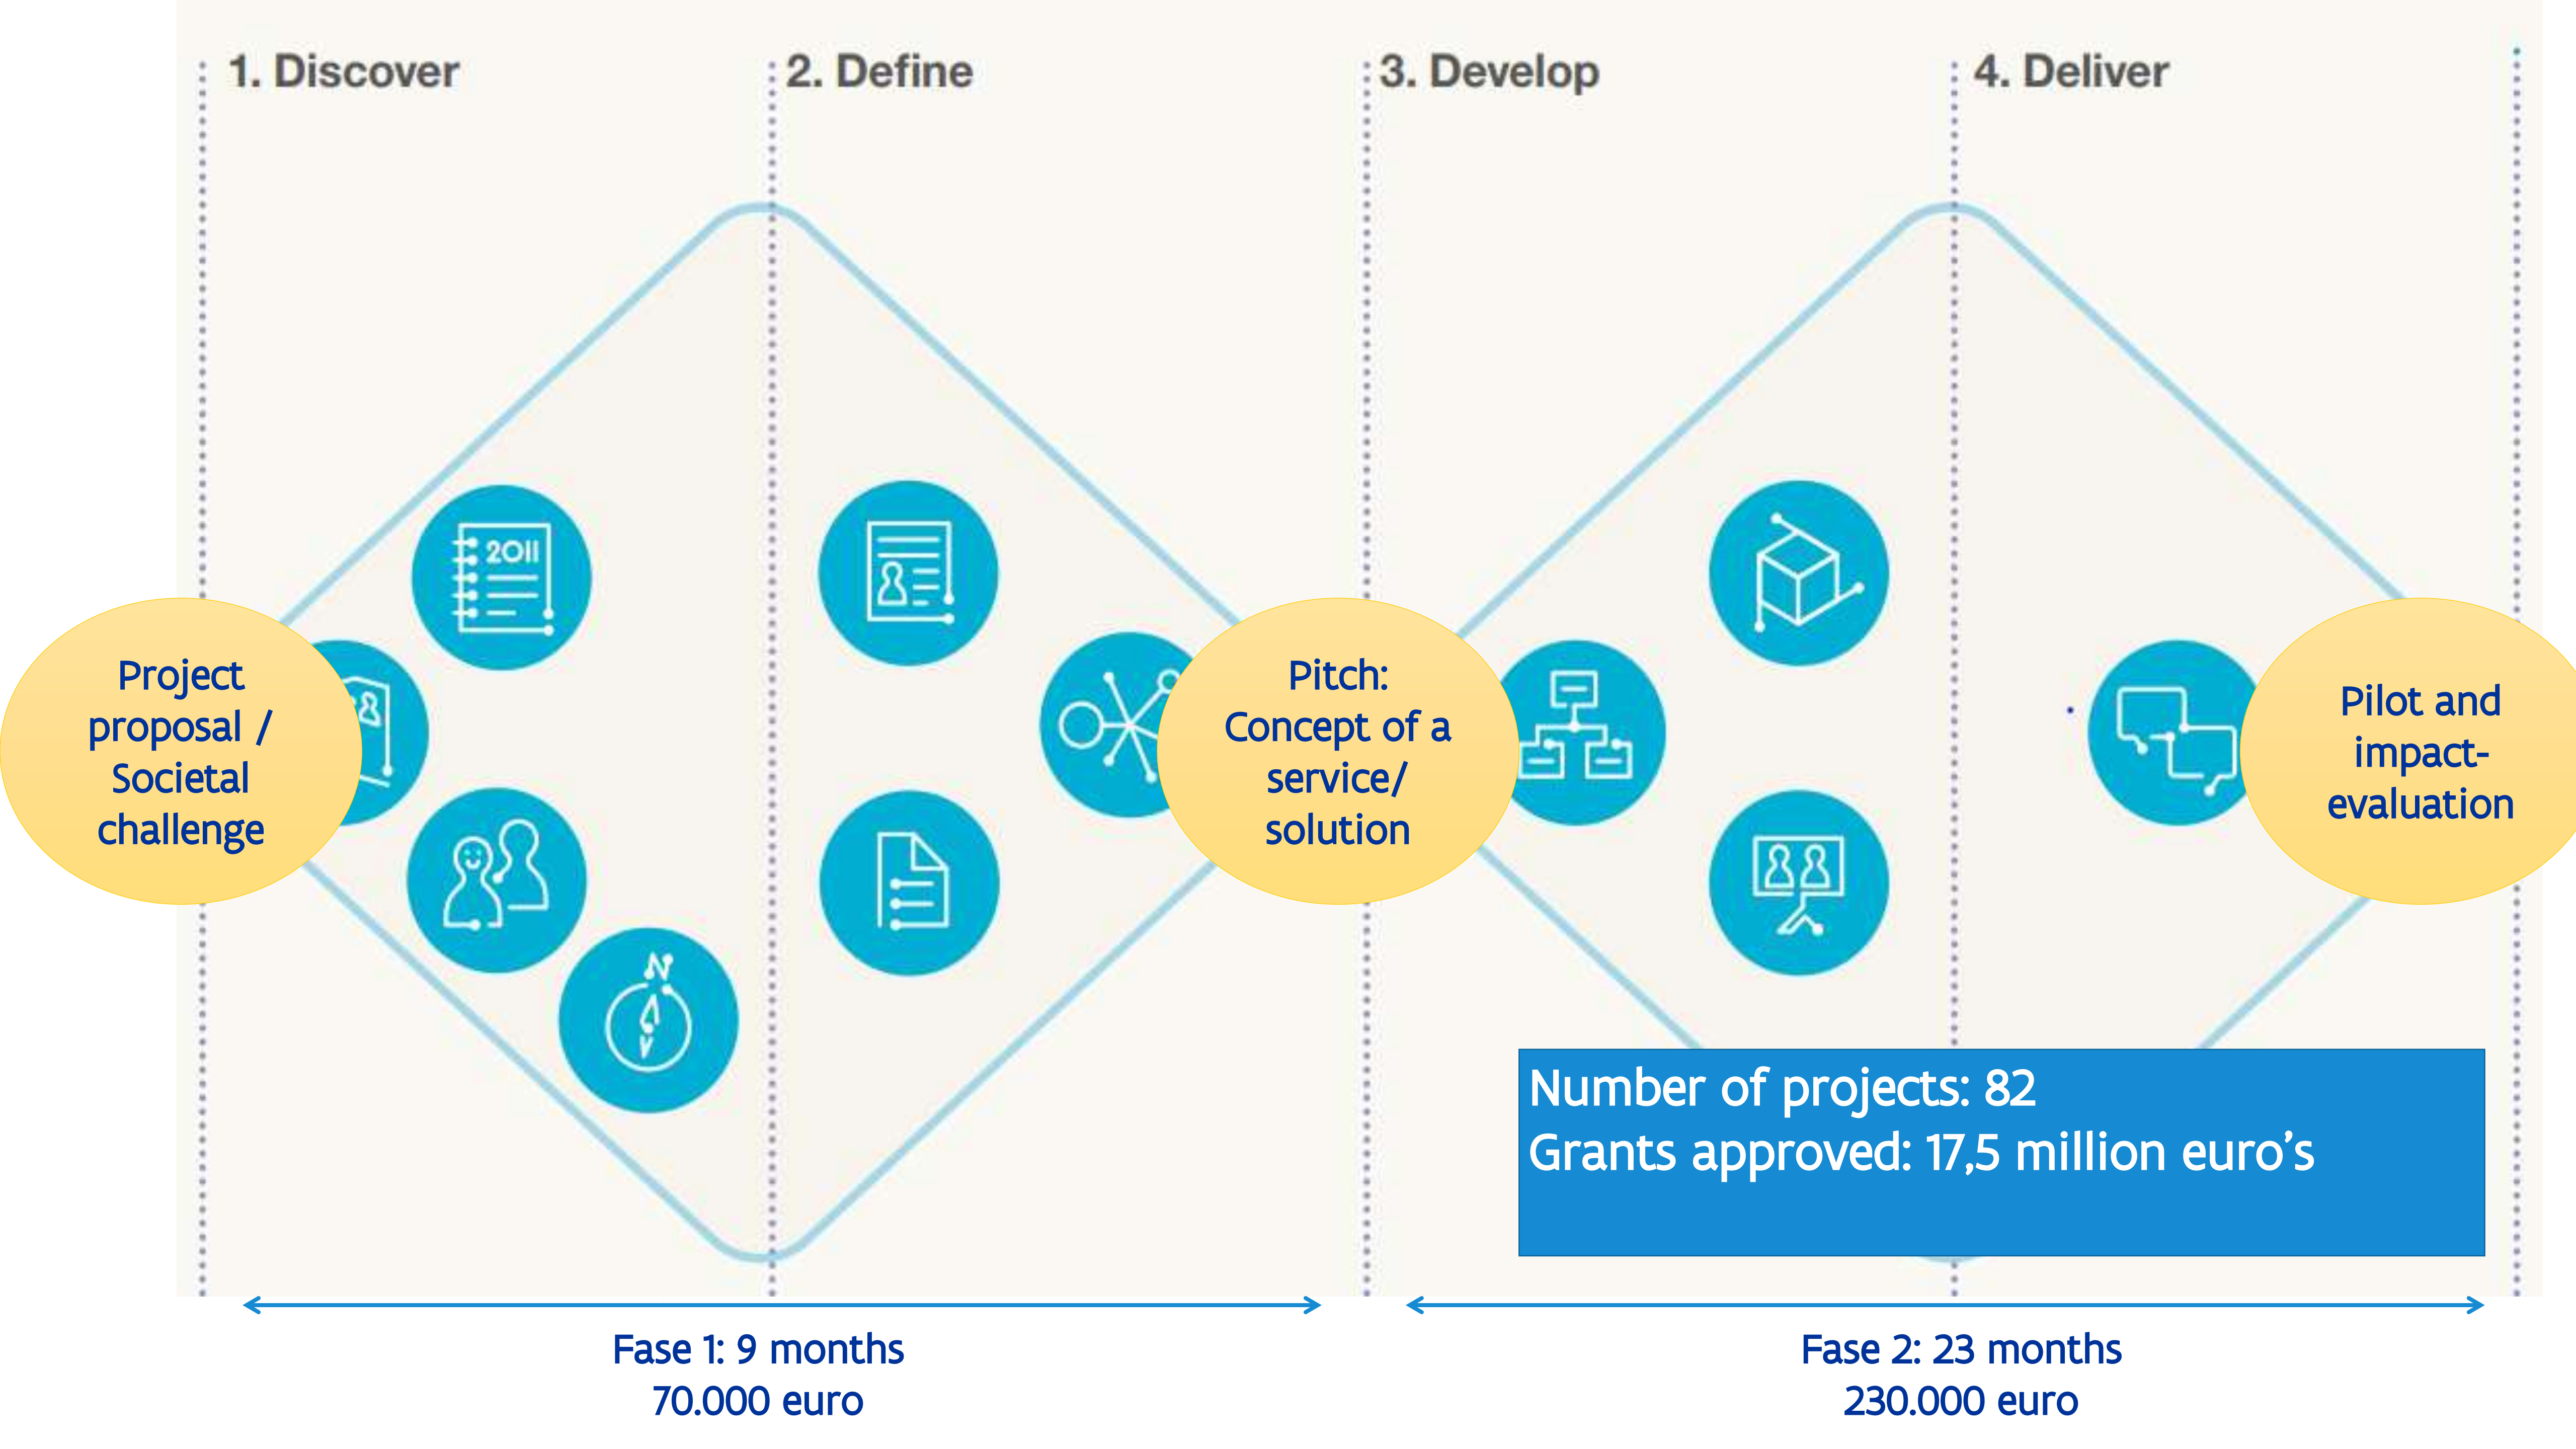

Pitch: Concept of a service/ solution

Pilot and impact-evaluation

Number of projects: 82
Grants approved: 17,5 million euro's

Fase 1: 9 months
70.000 euro

Fase 2: 23 months
230.000 euro

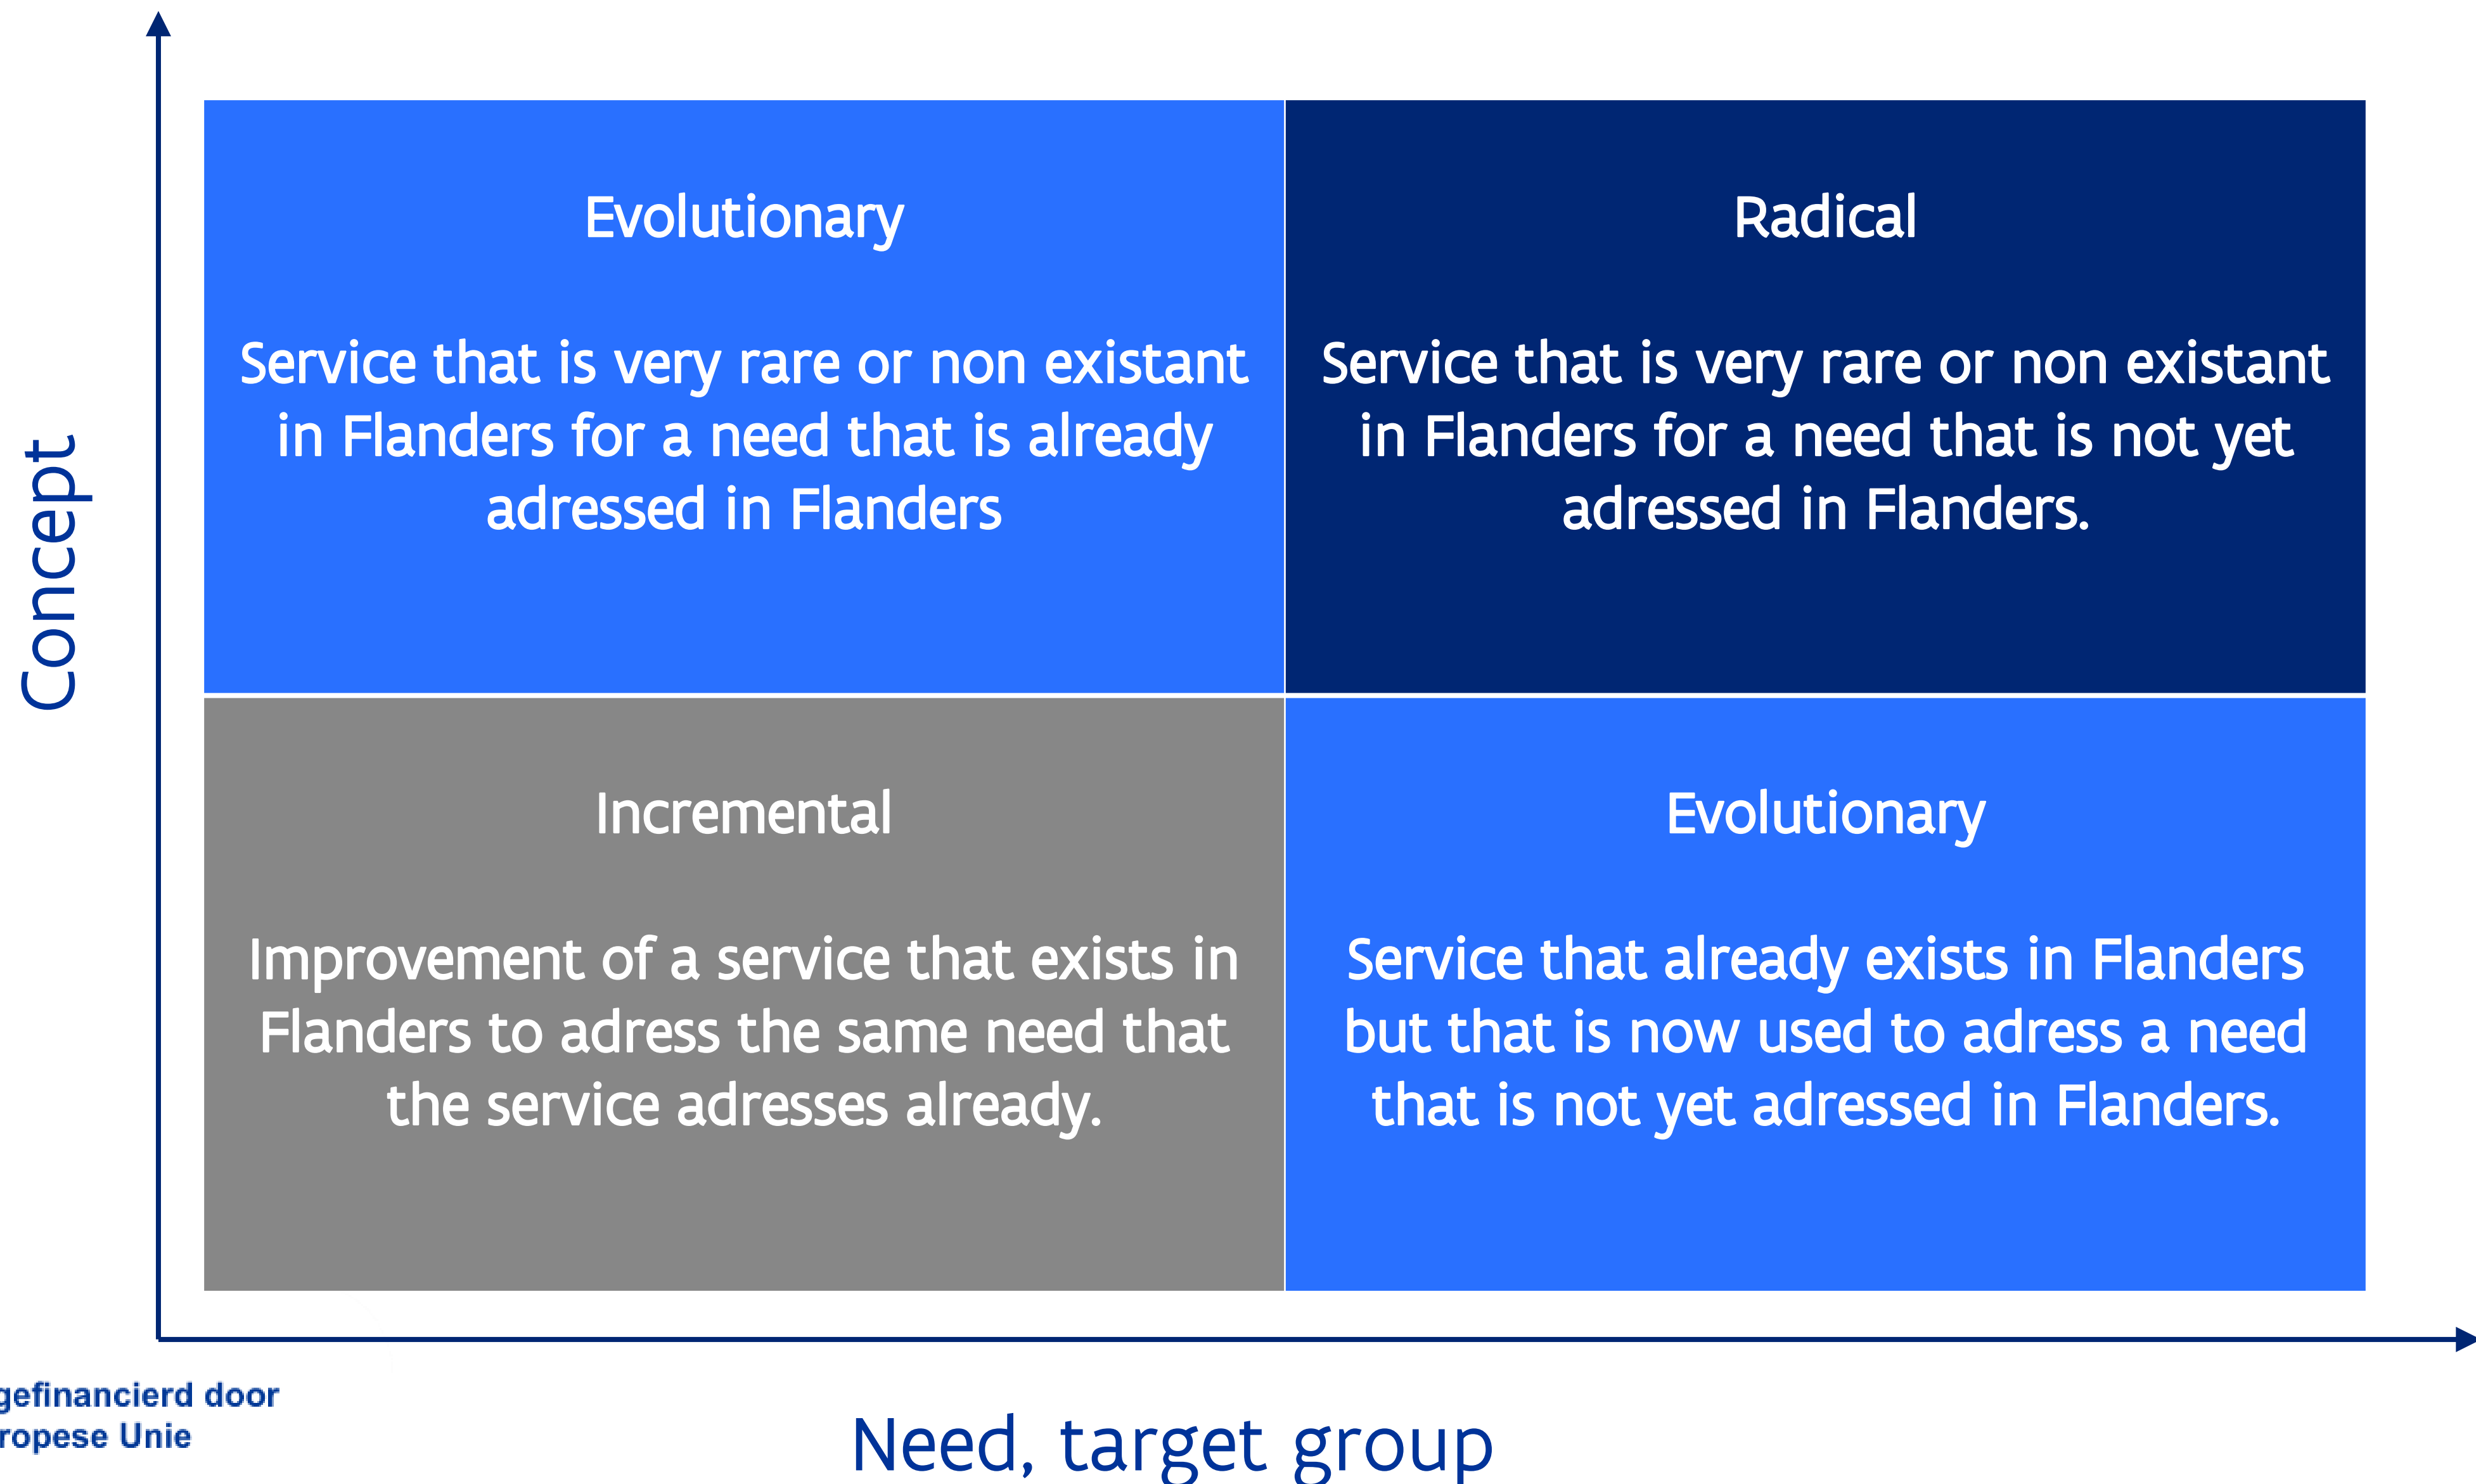

Project proposal: criteria

- Relevance of the societal challenge (cost of the challenge, number of people targeted, disadvantaged target group, ...)
- Feasibility of the approach to find an innovative solution (diverse perspectives, are crucial stakeholders involved, capacity of the team, ...)
- Responsible project management (orderly plan with crucial milestones, senior management involved, ...)

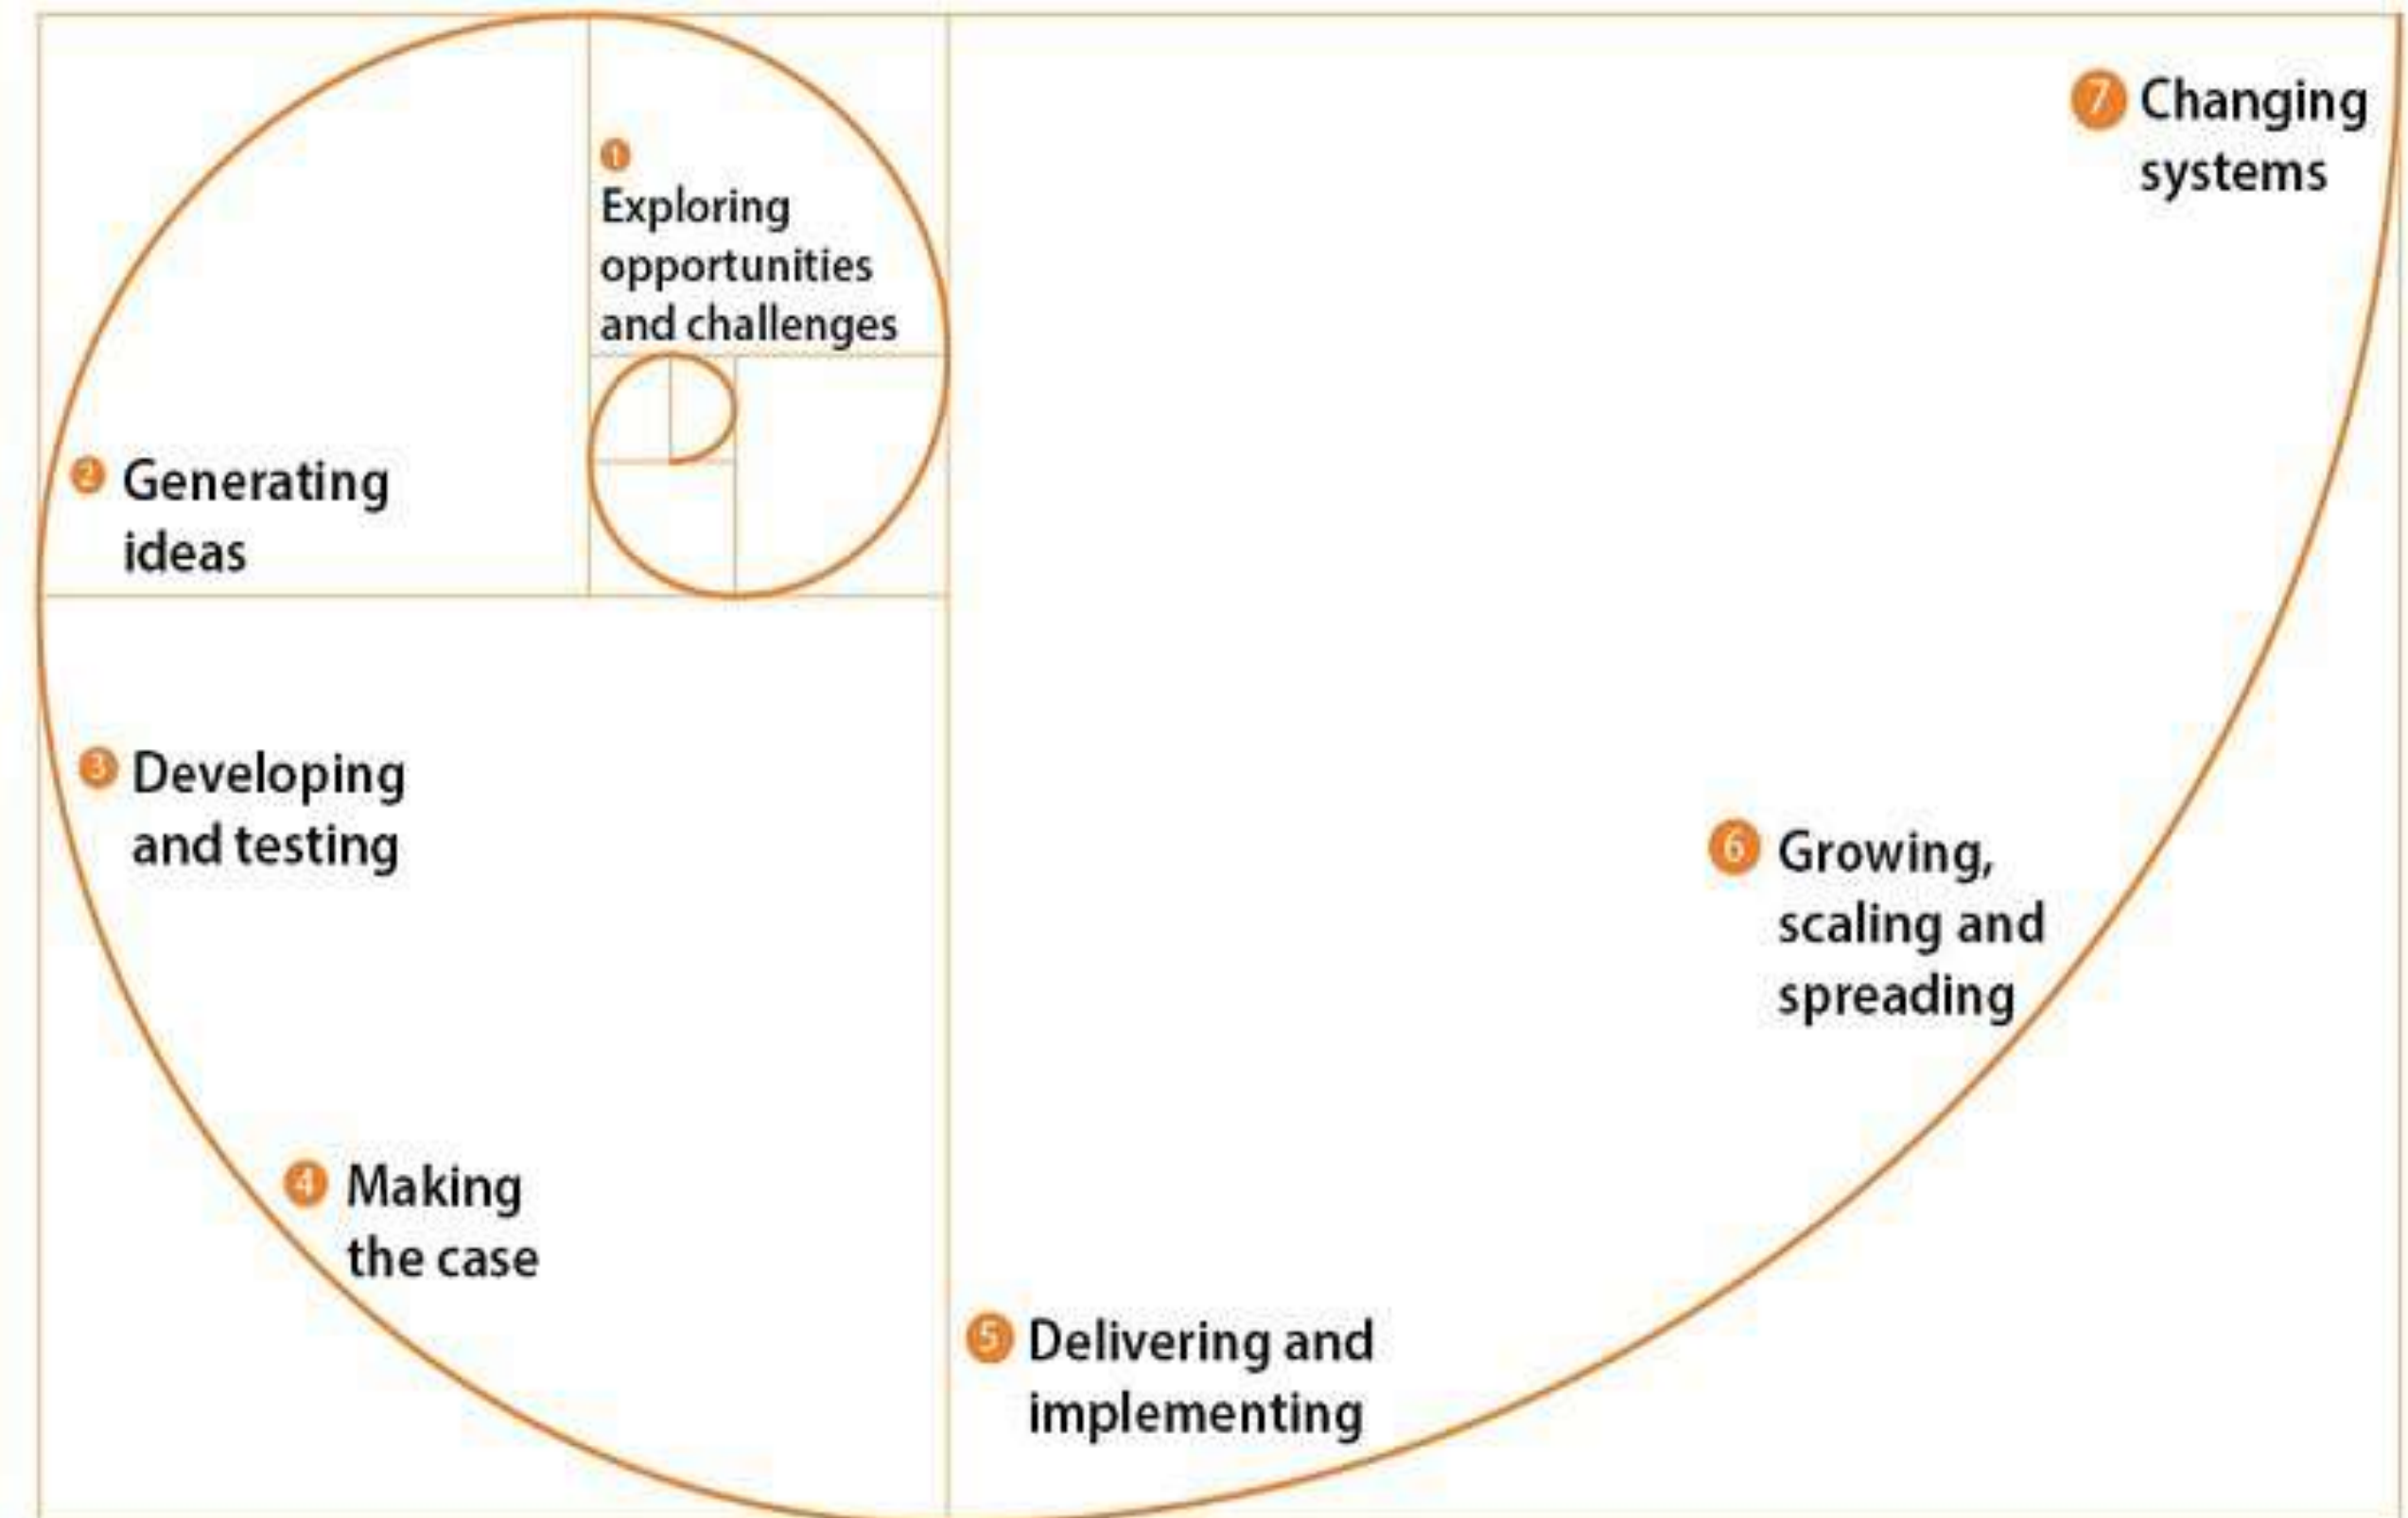

Medegefinancierd door
de Europese Unie

'Is it innovative enough?'

Lessons learned

- Capacity building is needed when it comes to service design/human centered design
- It is not given that innovations with impact also scale
- You can not change the world with building new services alone
 - How to change mindsets, culture, rules, ...?
